Developer passionate about learning, problem-solving, and building impactful web solutions using modern technologies.

OBJECTIVE

Aspiring Software Developer with a strong foundation in computer science and hands-on experience in full-stack web development. Passionate about creating efficient, user-friendly, and scalable applications using JavaScript, React.js, Node.js, and MongoDB. Seeking opportunities to contribute and grow in a dynamic technical environment.

SKILLS

Frontend: JavaScript, Python, C++, HTML, CSS
Backend: Node.js, Express.js
Frameworks & Libraries: React.js, Express, Bootstrap
Databases: MongoDB
Version Control: Git, GitHub
Tools & Others: VS Code, REST APIs, JSON, Data Structures, Postman

PROJECTS

Safarly ChetApp (Real-Time Chat Application) | React.js, Node.js, Socket.io, MongoDB

- Developed a real-time chat application enabling users to send and receive messages instantly using Socket.io.
- Implemented user authentication with JWT and secure password hashing using bcrypt.
- Designed an intuitive UI using React.js and managed chat states with React Context API.
- Used MongoDB to store user profiles, messages, and chat history efficiently.
- Integrated RESTful APIs for login, registration, and message management.
- GitHub Repository: github.com/farhannagorii/safarly-chetapp

Food Delivery App (Full-Stack Web Application) | React.js, Node.js, MongoDB, Express

- Developed a responsive web application allowing users to browse food items, manage cart, and place orders.
- Built RESTful APIs in Node.js with Express.js to handle user registration, authentication, and order data.
- Used MongoDB for real-time data storage of users, restaurants, and order details.
- Integrated secure password hashing, JWT authentication, and form validation.
- Enhanced UI/UX using React hooks, reusable components, and dynamic routing with React Router.
- GitHub Repository: github.com/farhannagorii/Food-delivery-app

MyAccordion (Interactive React Component) | React.js, CSS

- Created a reusable Accordion component to toggle and display hidden content dynamically.
- Implemented React state and props to manage component interactivity efficiently.
- Focused on component modularity, reusability, and clean code practices following React standards.
- Used CSS transitions for smooth expand/collapse animations to improve UI experience.
- GitHub Repository: github.com/farhannagorii/myAccordion

Portfolio Website (Personal Project) | HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio to showcase projects, skills, and achievements.
- Implemented smooth scrolling, responsive design, and optimized page load performance.
- Deployed using GitHub Pages for public access.

EDUCATION

Bachelor of Computer Applications (BCA)
Lucky Institute of Professional Studies, Jodhpur

Sep 2026 (Expected)
CGPA: 7.5
